A PENSION FOR MRS, COLONEL MORTON

Favorable Report on the Bill for the Ad mission of Idaho-New National Bank-Mr. Taulbee's Condition -Congressional.

The Secret Session Leakage Inquiry. Washington, March 6 .- The Senate in secret session yesterday afternoon discussed further the resolution of Mr. Dolph for the incarceration for contempt of the Senate of the newspaper men who have refused to disclose the source of the executive session news. constitutional question at issue, some of the Senators holding that the Senate had no right to imprison the newspaper men for refusing to disclose professiona secrets. Senator Dolph quoted liberally from the debate on the imprisonment of White and Ramslell in 1978, for refusing to disclose the source whence they obtained a copy of a treaty with Great Britain, then under consideration. Walter and Ramsdell were imprisoned for some time and were released rather in deference to public opinion than out of respect for their constitutional rights

Senator Evants made a long, dry speech, and Senator Edmunds and Sen ator theorye also spoke at some length on the constitutional phase of the quostion. It became evident before the Senate doors had been closed for half an hour that the debate (ould not be conchided jesterday, and one after another the Schators skipped away until, when the Senate adjourned, not more than a dozen were in their seats. Of those who spoke yesterday a Sen-

ator said last evening that no two agreed. An effort will be made to bring the discussion to a close to-day, but sev eral constitutional lawyers of eminence are anxious to be heard, and the whole Matter hay yo over to next week.

A Pension for Mrs. Morton. Morton, the widow of Lieutenant-Colonel Charles H. Morton, of the Enricty-fourth Illinois regiment. The person was granted on the ground that Coonel Morten, who committed san ide at his residence in Quincy, Ill., May 26, 1880, was insane at the time privations and sufferings incurred in the service. Colonel Morton was in Libby Prison seven months.

Within two years, if the bill went over, every Southern State would say they did not want it. The bill, if passed, would be the beginning of the con-trol of the educational system of the cour-try by the General Government, and ulti-mately the demoralization of the great body of the people on the subject of common schools. Mr. Hook (Tenn) made a strong presentation of the claims of the contestant. He charged that he 'Arkansas buildozing community' had entered into a conspiracy to prevent the return of Mr. Fratherstone to Congless. He appealed for a rair chance for the colored people of the South and said "Let no man hold a seat upon this floor who was returned by the means of Winchester rides, clubs and fraudulent ballot-boxes." He was in lavor of a National election law, and he thought the Government ought to be strong enough to protect the colored people at the South, the white people at the North and its entrems at home and abroad. BASE-BALL MATTERS.

The Troubles of the National League-The Detroit Club.

CLEVELAND, O., March 6.-After spending the entire day yesterday in freitless efforts to induce the Indianap-olis people to get out, the League delegates got together in the Wedell House at eight o clock last evening, and decided to refer the schedule back to the committee with instructions to make another report. Several of the clubs objected to the schedule as made up, and it was decided to demand a new one. After taking this action the meeting adjourned until ten o'clock to-day. It is pretty generally understood that the work of last night is the result of an agreement upon an eight-club league. President Nunick of the Pittsburgh club left for home yesterday, and his place upon the schedule committee will be filled by Secretary Schandrett.

The Detroit people have given up trying to get into the League, and will henceforth devote their energies to securing admission to the Brotherhood league. Fred Stearns yesterday offered Al Johnson free grounds and a first-class club if Detroit could be admitted to the Players' league. Johnson said he would have to refer the matter o the meeting here next week. Stearns then left for Detroit, and President Mills went to Buffalo, to see what chance there would be to get Rowe and White to transfer their Brotherhood franchise to Detroit. Manager Leadley is still here. When asked about the offer to Al Johnson, Leadley said: "Yes, we have made the Brotherhood an offer. Parker, one of the oldest port of Toulon, every one was astonished to see signals boisted on the flagship ordering the commanding officer of the Atlanta under arrest and directing the executive officer, Lientenant-Commander Condon, to take command. It seems that for some reason or other, the Atlanta had gone out of her course and broken up the sailing formation. Without giving her commander any opportunity for explanation he was publicly degraded before the whole fleet. Boston, March 6.-A meeting of rubber beet and shoe manufacturers was held here yesterday, all the large concerns in the country being represented. A new schedule of prices was agreed upon for April I, which makes practirally ten per cent, advance over present prices on all grades of goods. The advance is due to the increased cost of orade rubber, and unless the latter declines, there will probably be a still further advance of prices for manufact
